

The palette

Nine colours, one system. Two primaries carry the brand; everything else supports them. Values read from the logo artwork — confirm against the master vector before print production.

PRIMARY · INTERACTIVE #00A0E1 TerraOne Blue RGB0 160 225 CMYK100·29·0·12 PANTONE2925 C TOKEN--to-blue	PRIMARY DARK · LINKS #0072BC Deep Water RGB0 114 188 CMYK100·39·0·26 PANTONE3005 C TOKEN--to-blue-deep	PRIMARY · SUCCESS #6DBE45 TerraOne Green RGB109 190 69 CMYK43·0·64·25 PANTONE368 C TOKEN--to-green

Tints, contrast & code

Approved tints of the two primaries, the accessibility rules that govern where each colour may carry text, and the CSS custom properties to drop straight into a build.

Approved tints

TERRAONE BLUE

100%	80%	60%	40%	20%	10%
#00A0E1	#33B3E7	#66C6ED	#99D9F3	#CCECF9	#E6F6FC

TERRAONE GREEN

100%	80%	60%	40%	20%	10%
#6DBE45	#8ACB6A	#A7D88F	#C5E5B5	#E2F2DA	#F0F8EC

Only these six steps of each primary are permitted, and only as backgrounds. Never tint the ink, and never blend blue into green.

Contrast — WCAG 2.2 AA

SAMPLE	PAIRING	RATIO	GRADE
Text	Deep Ink on white	15.0:1	AAA
Text	Slate on white	6.3:1	AA
Text	Deep Water on white	5.1:1	AA
Text	Blue on white	2.9:1	fail
Text	Green on white	2.3:1	fail
Text	White on ink	15.0:1	AAA
Text	Blue on ink	5.1:1	AA
Text	Green on ink	6.5:1	AA

Bright blue and green cannot carry text on white. Use Deep Ink or Slate for body, Deep Water for links. Bright blue is a button fill with white text on it.

```
/* terraone.theme.css */
:root {
  --to-blue:#00A0E1; --to-blue-deep:#0072BC; --to-green:#6DBE45; --to-leaf:#8CC63F; --to-leaf-pale:#C6E0A6;
  --to-ink:#0E2A33; --to-slate:#4A6470; --to-mist:#DCE6E8; --to-paper:#F7F9FA;
  /* semantic */ --to-text:var(--to-ink); --to-link:var(--to-blue-deep); --to-action:var(--to-blue); --to-success:var(--to-green); --to-focus:var(--to-blue-deep);
}
```
